

House Bill 09-1091: Requires any existing single-family dwelling or dwelling unit of an existing multi-family dwelling offered for sale or transfer on or after July 1, 2009, that has a fuel-burning heater or appliance, a fireplace, or an attached garage to have an operational carbon monoxide alarm installed within a specified distance [*10 feet from entrance*] of each room lawfully used for sleeping purposes.

Requires any single-family dwelling or dwelling unit of a multi-family dwelling for which a building permit is issued for new construction on or after July 1, 2009, that has a fuel-burning heater or appliance, a fireplace, or an attached garage to have an operational carbon monoxide alarm installed within a specified distance of each room lawfully used for sleeping purposes.

Sets forth the maintenance and installation requirements for carbon monoxide alarms in single-family dwellings and dwelling units in multi-family dwellings that are used for rental purposes.

Specifies that nothing in the act shall be construed to limit a municipality, city, home rule city, city and county, county, or other local governmental entity from adopting or enforcing more stringent requirements for the installation and maintenance of carbon monoxide alarms.

Establishes that any person who installs a carbon monoxide alarm according to the manufacturer's published instructions shall have no liability to any person with respect to the operation, maintenance, or effectiveness of the carbon monoxide alarm.
